UNEP Meeting of experts designated by
Governments, Intergovernmental and
Non-Governmental Organizations on
the Ozone Layer

Washington, D.C., 1-9 March 1977

A REPORT TO UNEP ON RESEARCH ACTIVITIES IN ITALY - Summary

The research effort being carried out in Italy to improve the understanding of the impact of human activities on the ozone layer is reported.

The main fields in which Italian research organizations are involved cover: modelling, atmospheric measurements and atmospheric chemistry.
